

## Appliances properties: Scan A/S - Scan 1001 BB

### Master data

|                              |                                                                                   |
|------------------------------|-----------------------------------------------------------------------------------|
| Date of entry                | Mar 18, 2014                                                                      |
| Manufacturer                 | Scan A/S                                                                          |
| Model                        | Scan 1001 BB                                                                      |
| Nominal heat output [kW]     | 8                                                                                 |
| Continuous burning appliance |  |
| Type test standard           | DIN EN 13229                                                                      |
| Year of testing              | 2012                                                                              |
| Test laboratory              | Danish Technological Institute                                                    |
| Number of test laboratory    | 15                                                                                |
| Number of test report        | 300-ELAB-1588-EN UK                                                               |

### Flue gas values

|                             | Wood |
|-----------------------------|------|
| Flue gas mass flow [g/s]    | 7.4  |
| Flue gas mass flow [g/s]    | 220  |
| Necessary flue draught [Pa] | 12   |

### Further important characteristics of the appliance

Suitability for installation to a shared flue<sup>1)</sup>

Connectivity to the central heating system

General technical approval for room sealed operation

Type of appliance acc. EN 16510-1

<sup>1)</sup> For unsealed operation it is possible to install the appliances to a shared flue system (please see installation manual).

On behalf of the manufacturer, the HKI Industrieverband e.V. hereby confirms compliance with the respective requirements\* in accordance with 1.BImSchV. The type test report of the fireplace has been submitted to the HKI Industrieverband e.V.

\* A green check mark with a „1“ indicates that the requirements of the 1st BImSchV are fulfilled, a green check mark with a „2“ indicates that the 2nd level of the 1st BImSchV is fulfilled. A yellow check mark shows that the transitional regulation of the 1st BImSchV is fulfilled and a red line means that the 1st BImSchV is not fulfilled.

## Evaluation of emission data and efficiency Wood

| Norm : Inset appliances (with closed firedoor)   | Evaluation                                                                                     |
|--------------------------------------------------|------------------------------------------------------------------------------------------------|
| D - 1.BImSchV                                    | <br>Stufe 2 |
| A - Austrian regulation referred to Art 15a B-VG |             |
| CH - Swiss clean air act                         |             |
| F - Crédit d'impôt à la transition énergétique   | <br>7★      |

## Evaluation of emission data and efficiency Lignite briquettes

| Norm : Inset appliances (with closed firedoor) | Evaluation |
|------------------------------------------------|------------|
| D - 1.BImSchV                                  | !          |

## Emission evaluation legend

---

-   Compliant with the requirements of the 2nd stage of the 1.BImSchV (only for Germany)
-   Compliant with the requirements of the 1st stage of the 1.BImSchV (only for Germany)
-   Compliant with the requirements of the Austrian Agreement pursuant to Art. 15a B-VG from 2015 (applies only to Austria)
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 7\* of the Flamme Verte Label
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 6\* of the Flamme Verte Label
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 5\* of the Flamme Verte Label
-   Compliant with the requirements of the 1 star stage in Italy.
-   Compliant with the requirements of the 2 star stage in Italy.
-   Compliant with the requirements of the 3 star stage in Italy.
-   Compliant with the requirements of the 4 star stage in Italy.
-   Compliant with the requirements of the 5 star stage in Italy.
-  Fulfils the requirements
-  Complies with requirements of the transition ruling (1.BImSchV)
-  Requirements are not fulfilled
-  No information/unknown
-  No measuring values are available for this fuel, operation with this fuel is not permitted

No symbol means that there are no requirements.

Here you will find further information
