|------------------------------|-----------------------------------------------------------------------------------|
| Date of entry                | Jun 4, 2011                                                                       |
| Manufacturer                 | Buderus, Bosch Thermotechnik GmbH                                                 |
| Model                        | 125                                                                               |
| Nominal heat output [kW]     | 11.6                                                                              |
| Continuous burning appliance |  |
| Type test standard           | DIN 18892                                                                         |
| Year of testing              | 0                                                                                 |

### Replacement heating insert

HLS216, HWS216

### Further important characteristics of the appliance

|                                                             |                                                                                       |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------|
| Suitability for installation to a shared flue <sup>1)</sup> |  |
| Connectivity to the central heating system                  |  |
| General technical approval for room sealed operation        |  |
| Type of appliance acc. EN 16510-1                           |  |

<sup>1)</sup> For unsealed operation it is possible to install the appliances to a shared flue system (please see installation manual).

On behalf of the manufacturer, the HKI Industrieverband e.V. hereby confirms compliance with the respective requirements\* in accordance with 1.BImSchV. The type test report of the fireplace has been submitted to the HKI Industrieverband e.V.

\* A green check mark with a „1“ indicates that the requirements of the 1st BImSchV are fulfilled, a green check mark with a „2“ indicates that the 2nd level of the 1st BImSchV is fulfilled. A yellow check mark shows that the transitional regulation of the 1st BImSchV is fulfilled and a red line means that the 1st BImSchV is not fulfilled.

### Evaluation of emission data and efficiency Wood

| Norm : Inset appliance with flat-layer firing  | Evaluation                                                                                                                                                                 |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D - 1.BImSchV                                  | <br>According to the transitional rule §26 the appliance can be used until 31.12.2014 |
| F - Crédit d'impôt à la transition énergétique |                                                                                       |

**Norm : Inset appliance with flat-layer firing**

**Evaluation**

D - 1.BImSchV

!

According to the transitional rule §26 the appliance can be used until 31.12.2014

Emission evaluation legend

-  Compliant with the requirements of the 2nd stage of the 1.BImSchV (only for Germany)
-  Compliant with the requirements of the 1st stage of the 1.BImSchV (only for Germany)
-  Compliant with the requirements of the Austrian Agreement pursuant to Art. 15a B-VG from 2015 (applies only to Austria)
-  Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 7\* of the Flamme Verte Label
-  Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 6\* of the Flamme Verte Label
-  Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 5\* of the Flamme Verte Label
-  Compliant with the requirements of the 1 star stage in Italy.
-  Compliant with the requirements of the 2 star stage in Italy.
-  Compliant with the requirements of the 3 star stage in Italy.
-  Compliant with the requirements of the 4 star stage in Italy.
-  Compliant with the requirements of the 5 star stage in Italy.
-  Fulfils the requirements
-  Complies with requirements of the transition ruling (1.BImSchV)
-  Requirements are not fulfilled
-  No information/unknown
-  No measuring values are available for this fuel, operation with this fuel is not permitted

No symbol means that there are no requirements.
