| Model                                      | Taurus (Grundmodell Esprit)                                                       |
| Nominal heat output [kW]                   | 7                                                                                 |
| Declared nominal space heating output [kW] | 7                                                                                 |
| Partial load [kW]                          | 3.5                                                                               |
| Part load space heating output [kW]        | 3.5                                                                               |
| Continuous burning appliance               |  |
| Type test standard                         | DIN EN 13240                                                                      |
| Year of testing                            | 2002                                                                              |
| Test laboratory                            | Versuchs- und Forschungsanstalt der Hafner Österreichs                            |
| Number of test laboratory                  | 8                                                                                 |
| Number of test report                      | TGM-VA HL 6652-1                                                                  |

Further important characteristics of the appliance

|                                                             |                                                                                       |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------|
| Suitability for installation to a shared flue <sup>1)</sup> |  |
| Connectivity to the central heating system                  |  |
| General technical approval for room sealed operation        |  |
| Type of appliance acc. EN 16510-1                           |  |

<sup>1)</sup> For unsealed operation it is possible to install the appliances to a shared flue system (please see installation manual).

On behalf of the manufacturer, the HKI Industrieverband e.V. hereby confirms compliance with the respective requirements\* in accordance with 1.BImSchV. The type test report of the fireplace has been submitted to the HKI Industrieverband e.V.

\* A green check mark with a „1“ indicates that the requirements of the 1st BImSchV are fulfilled, a green check mark with a „2“ indicates that the 2nd level of the 1st BImSchV is fulfilled. A yellow check mark shows that the transitional regulation of the 1st BImSchV is fulfilled and a red line means that the 1st BImSchV is not fulfilled.

Evaluation of emission data and efficiency Wood

Norm DIN EN 13240: Roomheater for wood logs

Evaluation

EU - Regulation (EU) 2015/1185 (Ecodesign)

D - 1.BImSchV

Stufe 2

F - Crédit d'impôt à la transition énergétique

7★

I - Italian Decree No. 186

☆☆☆

Evaluation of emission data and efficiency Lignite briquettes

Norm DIN EN 13240 (Intermittent burning): Roomheater with flat-layer firing

Evaluation

D - 1.BImSchV

According to the transitional rule §26 the appliance can be used until 31.12.2024

## Emission evaluation legend

---

-   Compliant with the requirements of the 2nd stage of the 1.BImSchV (only for Germany)
-   Compliant with the requirements of the 1st stage of the 1.BImSchV (only for Germany)
-   Compliant with the requirements of the Austrian Agreement pursuant to Art. 15a B-VG from 2015 (applies only to Austria)
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 7\* of the Flamme Verte Label
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 6\* of the Flamme Verte Label
-   Compliant with the requirements for the „Crédit d'impôt“ promotion in France, the fireplace complies with the classification 5\* of the Flamme Verte Label
-   Compliant with the requirements of the 1 star stage in Italy.
-   Compliant with the requirements of the 2 star stage in Italy.
-   Compliant with the requirements of the 3 star stage in Italy.
-   Compliant with the requirements of the 4 star stage in Italy.
-   Compliant with the requirements of the 5 star stage in Italy.
-  Fulfils the requirements
-  Complies with requirements of the transition ruling (1.BImSchV)
-  Requirements are not fulfilled
-  No information/unknown
-  No measuring values are available for this fuel, operation with this fuel is not permitted

No symbol means that there are no requirements.
